LAB ASSIGNMENT 8

1. Write a C++ program to write number 1 to 100 in a data file NOTES.TXT
2. Write a user-defined function in C++ to read the content from a text file OUT.TXT, count and display the number of alphabets present in it.
3. Write a program to copy the contents of one file to another.
4. Write a program to perform read/write binary I/O operation on a file (i.e. write the object of the class to a file)
5. Write a program to implement I/O operations on characters. I/O operations include inputting a string, calculating the length of the string, storing the string in a file and fetching the stored characters from it.
